## **DETAILED ACTION**

### ***Response to Arguments***

1. Claim 1 has been cancelled. Applicant's arguments with respect to newly submitted claim 2 have been considered but are moot in view of the new ground(s) of rejection.

### ***Drawings***

2. Figure 3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

3. The disclosure is objected to because of the following informalities: It is unclear to the examiner what is meant by the term "jump-type". The specification does not define the term. Clarification of the term is requested.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 recites the limitation "each set of two adjacent fastening fasteners of the plurality of fastening fasteners" in lines 11-13. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 2, as best understood by the examiner, is rejected under 35 U.S.C. 102(b) as being anticipated by VanGompel et al. USPN 6030373. VanGompel discloses a disposable article comprising:
- a) a fleece sticker (col. 12, line 42 through col. 13, line 12) disposed on the front; and
  - b) two adjustment belts 90 capable of being removably connected to the fleece sticker (col. 12, line 42 through col. 13, line 12), located on each of two opposing sides of a

Art Unit: 3761

rear section of the disposable article, each of the two adjustment belts having a buckling section 44 having:

i) a plurality of fastening fasteners 30, each plurality of the plurality of fastening fasteners extending from a first edge to a second edge of the buckling section (Figure 1); and

ii) at least one flexible soft facet 65, which the examiner interprets as the areas between the fastening facets 30, and which divide the plurality of fastening fasteners (Figure 1). VanGompel discloses several materials suitable for the section 44 (col. 26, lines 51-67) all of which are flexible and soft relative to the harder hook material (30) of an interengaging hook-and-loop mechanical fastening system (col. 13, lines 2-12).

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kido et al. USPN 5897546 is cited to show a plurality of fastener areas with a soft facet therebetween.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
